May 2018

Imagestore Modular (ISM-3901):

This is a low cost Densité module for Master Control and Channel Branding applications. It is based on Miranda's successful LGK-3901 channel branding processor.

- Imagestore-Modular product code = ISM-3901.
- ISM-3901 is a “product bundle” which comprises:
 - a) LGK-3901 module with 8GB storage + 3.0 software or later
 - b) Corresponding Densité 3RU double rear
 - c) AB-mix option for LGK
 - d) LGK User manual

Note: for the Imagestore Modular product:

1. Supplied LGK-3901 User Manual applies to Imagestore-Modular also.
2. All relevant software and configuration tools refer to “LGK-3901” or “LGK” product.
