

XRE Transcoder Update Instruction

Preparation

Make sure that any clip does not exist in the Watch Folder if you use. If a clip exists, back up it to another folder.

Upgrading Software

- 1) Uninstall both XRE Transcoder and XRE Server via Programs and Features.
**You do not need to deactivate XRE Server and Transcoder license.*
- 2) Restart Windows.
- 3) Install new build of XRE Server and Transcoder.
- 4) Restart Windows.
- 5) Move backed up clip to the Watch Folder.
